

**PARENT TOPIC 3
MONEY - KEEPING TRACK**

Birthday party budget

Sample budget

The party is for 10 people; each person has a budget of \$6. This was calculated by \$60 divided by 10 = \$6.00 each.

Decide if each item will enough serves for the party. You will need to estimate for some items. This will help to decide if this item is value for money.

Item	Quantity	Sufficient serves for party	Total cost	Balance
Cup cake mix	Makes 10 cakes	Yes	\$5.00	\$60.00 - \$5.00 = \$55.00
Cocktail frankfurts	1/2 kg frankfurts - 20 in 1/2kg	Yes	\$6.00	\$55.00 - \$6.00 = \$49.00
Change from \$60.00				

Item	Quantity	Sufficient serves for party	Total cost	Balance
				\$60.00
			\$5.00	\$55.00
			\$6.00	\$49.00
Change from \$60.00
